ICT Equipment & Consultant Database System

This is software for ICT Equipment and IT Consultant database system. It will contain ICT Equipment information like Desktop Pc, Laptop, Printer, Scanner etc. also keep the list of IT consultant working in different projects, units and other offices in LGED.

The Divisional offices, Regional Offices, District Offices and Project offices will enter data directly login to the system with PMIS software office admin Username and Password.

The Upazila offices will send the data to their District offices with specific format.

How it works:

Write "pmis.lged.gov.bd/ict/login.aspx" to the address bar of Mozilla Firefox or Google Crome Browser and press Enter to view Login page. After viewing the Login Panel write Office user admin Username and Password and click Login Button to login the system. Here the Image shows details how it works.

The system will contain Menu in the left side with ICT Equipment Information and IT Consultant Information. ICT Equipment Information Menu will contain 2(Two) Sub-Menu ICT Equipment and ICT Equipment Report.

- 1. Click on the "**ICT Equipment**" Sub-Menu and the system will appear a new page to entry ICT Equipment Information. This page contains all the ICT equipment information of an office or its subordinate office. The main office as well as subordinate office's ICT equipment information have to entry from main office. It has also edit/change and delete permission to its all data entry from here. The following are the way to enter the information.
 - a. The user will select the office name
 - b. The user will select Equipment type, there is some pre-select equipment type.
 - c. If user selects Desktop/Laptops/Server option, a new panel will appear in the right side of the form. Here the user will enter additional information of Desktop/Laptops/Server.
 - d. If user selects Printer option, a new panel will appear in the right side of the form. Here the user will enter additional information of Printers.
 - e. if user select **Others** it will appear a new **TextBox** and the user have to write the **Others** equipment type name.
 - f. The rest of the Equipment type will fill as instructed in the form.
